Business Description

It is a great opportunity to operate your own established business, and assistance and service will always be available from Prenatal Peek, the Licensee provider. The business specializes 2D/3D/4D ultrasound imaging for pregnant women, and it has sustainable and loyal customers and growing need as there are more and more pregnancies.

What makes the business great is that this business is full of enjoyment as you get to give customers the very first glance at their new family member. You will bring happiness to the customers each time you show them the smiling faces inside the womb, and customers always enjoy the unique experience. The expecting mothers and fathers get to create unforgettable bonding and memories before babies came to the world. The goal of the business is to provide service and enjoyment to the expecting parents.

Work Schedule:

The work comes as needed and is very flexible with busy schedules.

Competition:

The Prenatal Peek® Trademark License protect that you will have exclusive rights to your specific territory.

Growth and Expansion:

Opportunity to add related services/sales to imaging products/services, expecting mother's products, and baby related items.
